

Welcome to Saint Michael Episcopal School!

At SMES, our students are curious, inquisitive learners. They are eager to learn and develop their natural curiosity for the world around them. Our dedicated staff members nurture the strengths and interests of each child, while offering a curriculum that stimulates children's intellectual and spiritual growth with experiences that foster creative thinking, development of strong character, and a foundation in faith.

As our students grow and develop, so, too, does Saint Michael. We are continually enhancing our social-emotional experiences, curriculum and Episcopal chapel programs, incorporating the latest brain-based research on how students learn, collaborate, and engage in the most developmentally appropriate way. We also ensure that each of our programs offers the foundational skills that will support our students during their time with us and in the years to follow.

Exciting changes and enhancements are already happening to welcome you in the fall. Over the summer, we are creating a beautiful and welcoming new entrance and more convenient carpool traffic pattern. You will even notice the beginnings of new physical layouts, playgrounds, classrooms and spaces at SMES in the fall that further support our Episcopal identity, curriculum and social and emotional focus.

Since our founding year in 1986 as a ministry to parents, our school has evolved into a thriving early childhood experience. Saint Michael Episcopal School's mission is to provide a nurturing, individualized, inclusive early childhood experience based on our four pillars - Service, Education, Love and Faith. As an Episcopal school, we believe that serving others is one of the best ways we can teach our little ones to know God.

During this unprecedented time across the world and nation, please know that we are optimistically and enthusiastically making many preparations and several plans for safely returning to school in the fall. As the start of the school year gets closer, we will share more specific details.

We hope that you will find Saint Michael to be the school where your child grows to love learning and to love those around them. Whether you come to SMES for two years or five, you are joining a family that lasts a lifetime. I invite you to visit our campus, see our vibrant classrooms, meet our incredible little learners, feel the warmth of our talented teachers and experience all that Saint Michael Episcopal School offers.

Sincerely,

Netra Fitzgerald
Head of School
